

# CIP

powered  
by  
**Intechgra**  
Database Solutions Inc.

Intechgra's Community Integration Platform (CIP) is the most powerful, secure and cost-effective interface engine on the market.

The CIP ensures your critical applications communicate seamlessly, both within your practice and with outside vendors.

## Key Features

- ✓ **Web Based**
- ✓ **Fast, secure & reliable patient demographics, orders and results**
- ✓ **Highly detailed logs**
- ✓ **Supports most secure transport media (VPN, FTP, SSL)**
- ✓ **Supports HL7, ASTM, & direct SQL**

## CIP Benefits

- **CIP** reduces costs & enhances efficiency
- **CIP** improves security
- **CIP** improves audit trails
- **CIP** eliminates many data entry errors
- **CIP** maintains your ownership of your records

## Reduce Costs & Increase Connectivity

**CIP** provides cost savings and peace of mind with a powerful blend of benefits:

- Reduce operating (data entry personnel) costs
- Utilize your existing systems; there's no need to buy new applications
- Connect with EMR, HIS, EHS, lab, radiology, pharmacology and others
- Support all types of interface messages, (ADT, orders, results, etc.)
- Secure your transactions to exceed HIPAA standards

## Beyond HIPAA Security

- The **CIP-Communications Server (CIP-CS)** uses extensive encryption and hardened authentication to secure all data transfers
- **CIP-CS** works on all platforms
